Step on to the ice only when it’s thick enough to hold your weight!

Note different Ice thickness!

Observe warnings and follow them!

Do not make holes in the ice for fun!

Take note of markings on the ice!

Wear warm clothes!

Never go alone on the ice!

Watch out for others!

Help others!

Leave the ice when it crackles and cracks!

Lie down when in danger of breaking through the ice!

Crawl back on the same path to the shore!

Approach someone in the ice with something to distribute your weight!

Never reach for someone in the ice with your hand only with something!
